

# "Let's Talk" & "Let's Do" Cards

**Instructions:** Cut out these learning cards for quick, adult-led conversation and activity starters!

## Teacher Tips

- **Know the goals of the show:** The learning goals for NATURE CAT! are: natural science, life science, earth science, and environmental science.
- **Keep cards nearby:** Print, cut and keep the cards where you can access them quickly and easily.
- **View with a purpose:** Be deliberate when inviting your student to watch a PBS KIDS show. These cards can help by adding meaningful conversation and easy activities to their experience.
- **Together is better:** Cards are designed for both individual or group work, with a grownup guiding the conversation.

### Let's Talk!

What nature adventure did Nature Cat and his friends have today? What problem did they solve?

### Let's Do!

Go outside and explore! Bring a notebook and pencil to record what you discover. What do you notice? What do you wonder about?

### Let's Talk!

What place did Nature Cat explore outside? What did it look like?

### Let's Do!

Find a place or create a background with paper or household materials that looks like the place Nature Cat explored. Act out the NATURE CAT story or make up your own.

### Let's Talk!

What animals did Nature Cat find? What did you learn about the animals?

### Let's Do!

Draw a picture of the animals and share what you learned.

### Let's Talk!

Do you have a pet? Have you ever wondered what pets do when you—or others—leave the house? Where do you think a pet would go to explore? Why?

### Let's Do!

Imagine your pet—or one you know—turns into a special agent when you leave home. Create a story about this pet and share with your family.

### Let's Talk!

How did Nature Cat and his friends use their talents or interests? What are your talents? What do you love to do?

### Let's Do!

Onward and artward! Collect items in nature—such as leaves, bark, and pebbles—and use them for a work of art. You can build a sculpture, paint a picture, or even make music using the items! Use your talents and creativity!

### Let's Talk!

How do you feel when you are out in nature? What are your favorite things to do outdoors?

### Let's Do!

Invite a friend or family member to go on a nature walk. Think of things you might see on your walk and create a bingo game with those items.
